PROCEDURE FOR USING A DIAL TELEPHONE

1. Be sure of correct number.
2. Lift receiver with one clean movement.
Do not jiggle the cradle switch.
3. Listen for dial tone (STEADY BUZZ) before dialing.
4. When dialing, turn dial until finger reaches stop, then release. Do not force the dial to return position.
5. If station called is busy, an intermittent buzz will be heard. Hang phone up for a few seconds then dial again.
6. When a call is received, called party may hang up his phone; leave; then return to continue the conversation; providing calling party does not hang up his phone.
7. Upon completion of a conversation, replace the handset properly in the cradle provided on the phone.

EXECUTIVE RIGHT OF WAY TELEPHONES

1. Several telephones installed aboard ship are equipped with an executive feature. These telephones will establish a connection with any phone, whether called station is busy or not. They are marked "Executive" over the telephone.

NOTICE

Report any dial trouble to the repairman in the I. C. Room. Telephone Number 336.
